FORWORD—For fifteen years we have studied varieties through catalogs, magazines and visits to large gardens and exhibits, as well as growing hundreds of varieties in our own gardens. This simple price list with its meager descriptions is the result of our conclusion. We find little except disappointments in the long expensive descriptions usually found in our catalogs and in this day of rapid transit combined with the easy accesibility to flower gardens shows and exhibitions there is little excuse for our disappointments. The failure of words to express the real beauty of a flower coupled with the over anxiety of the originator often makes descriptions misleading.

The hybridizers are bringing out many new and wonderful creations and the debt of the public to these plant wizards will never be paid, but there is a set of unscrupulous growers taking advantage of this insatiable thirst of the public for new things and are depending upon catchy advertisements to put it over for them.

You are welcome at our gardens at any time. We shall have thousands of tulips in bloom in April and May; Gladioli, in July, August and in September; Dahlia in September and October. Our gardens are located at 901 West Main St., on the C. C. C. Highway. You are especially welcome on Sundays as on these days we often hold flower shows in our new bulb cellar.

DAHLIAS

The following dahlias are some of the world's best exhibition varieties. Every one is the large exhibition type, and have been selected from thousands of varieties. Each variety is distinct.

Our prices are made very cheap to introduce them. Note the very special sale price on JERSEY BEAUTY and the WORLD'S BEST WHITE. They are probably the two most popular varieties for the past two seasons.
